

SALFORD

Minimum Unit Pricing (MUP) in Salford

What is MUP?

MUP sets a floor price for a unit of alcohol. It targets the cheapest alcohol most commonly consumed by the heaviest drinkers.

MUP was introduced in Scotland at 50p per unit in 2018, meaning 3 litres of strong cider (ABV 7.5%) now costs no less than £11.25. Currently in England, this same bottle of cider can cost as little as £3.50.

Alcohol harm is a driver of health inequalities, with more deprived communities suffering higher levels of harm despite consuming less alcohol; so when it comes to alcohol harm in England, there is also a North/South divide.

For this reason, **evidence about the impact of MUP is now available at a local authority level for most parts of the north of England** following a University of Sheffield research study. Key findings for our local area can be found below.

Alcohol Harm in Salford

Current estimates of harm caused by alcohol in our area.

In our area, **88% of the alcohol sold for less than 50p per unit** is consumed by increasing and higher risk drinkers who make up 26% of the local population.

FEWER INCIDENTS OF CRIMINAL DAMAGE

78

FEWER VIOLENT INCIDENTS

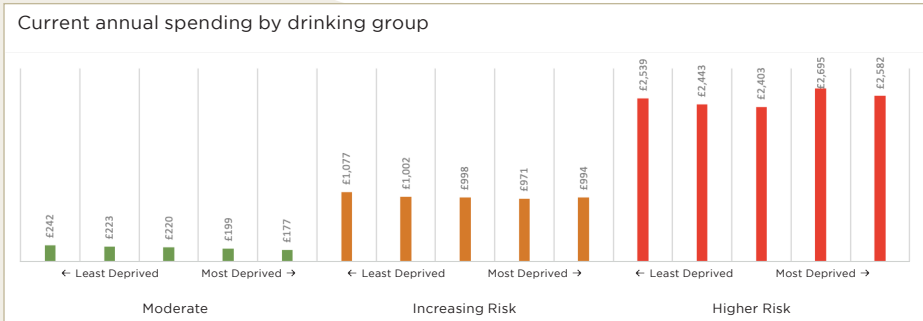

138

DEATHS **PREVENTED** IN THE NEXT 20 YEARS WITH A 50P MUP

Who Would Be Most Affected?

MUP is targeted at the heaviest drinkers who consume the cheapest, strongest alcohol, especially in the most deprived areas, and would help to reduce health inequalities. It achieves this with little impact on moderate drinkers, including those on low incomes.
