
REPORT OF
Returning Officer

TO
Full Council

ON
20 November 2019.

TITLE: Outcome of the compulsory review of polling districts and polling places 2019

RECOMMENDATIONS:

Members of the Electoral Matters Committee:

1. Recommend to Council the changes to polling districts and polling stations as detailed in the report be adopted.
 2. Recommend to the Council that the Chief Executive is requested to publish such notices and other documentation required by law on completion of the review.
 3. It should be noted that as a Parliamentary General Election is taking place on the 12 December 2019, the electoral register will need to be published on the existing scheme. This is to ensure that polling station information contained on poll cards remains accurate for Election Day. The electoral register will then need to be re-published on 1 January or 1 February 2020, to reflect the new scheme.
-

EXECUTIVE SUMMARY:

As required by the Electoral Administration and Registration Act 2013, compulsory reviews of parliamentary polling districts and polling places must take place every 5 years, reflecting the Fixed Term Parliament Act 2011.

The Council undertook its last compulsory review, which was combined with a review of local election arrangements, in 2013 coming into effect in April 2014. The Council was therefore required to undertake the next compulsory review within the 16 month period beginning on 1 October 2018 and concluding by 31 January 2020.

This was subject to approval by the Electoral Matters Committee (a non-executive committee of the council which has the relevant delegations under Salford's constitution).

It is necessary that this review takes into account the changes to some of the city's ward boundaries, following the conclusion of the Local Government Boundary Commission for England's (LGBCE) Electoral Review of Salford.

BACKGROUND DOCUMENTS:

- Representation of the People Act 1983;
 - The Review of Polling Districts and Polling Places (Parliamentary Elections) Regulations 2006;

KEY DECISION: YES / NO

DETAILS:

1. Introduction

1.1 As required by the Electoral Administration and Registration Act 2013, compulsory reviews of parliamentary polling districts and polling places must take place every 5 years, reflecting the Fixed Term Parliament Act 2011.

1.2 The Council undertook its last compulsory review, which was combined with a review of local election arrangements, in 2013 coming into effect in April 2014. The Council was therefore required to undertake the next compulsory review within the 16 month period beginning on 1 October 2018 and concluding by 31 January 2020.

1.3 It is necessary that this review takes into account the changes to some of the city's ward boundaries, following the conclusion of the Local Government Boundary Commission for England's (LGBCE) Electoral Review of Salford.

1.4 At the Electoral Matters Committee on 20 August 2019, the Committee authorised the initiation of a statutory review of the city's parliamentary polling districts and polling places, to be combined with a review of local government polling districts. The formal review process started on 21 August 2019 and finished on the 27 September 2019.

2. Glossary of Terms

A polling district is defined as a geographical area created by the sub-division of a constituency or ward into smaller parts.

A polling place is a designated area (e.g.: a designated building) for a polling district into which polling stations are located.

A polling station is the room or area within a polling place where voting is conducted.

3. Requirements of the Review

In conducting the compulsory review, local authorities must:-

- Publish notice of the holding of the review;
- Consult the (Acting) Returning Officer in a constituency which is wholly or partly in its area;
- Seek representations from the (Acting) Returning Officer to include information as to the location of polling stations within polling places;
- Publish the (Acting) Returning Officer's representations within 30 calendar days of receipt;
- Seek representations from persons that have expertise in relation to access to premises or facilities for persons who have different forms of disability;
- Seek representations from electors in a constituency wholly or partly in the authority's area;
- Encourage representations to be made regarding proposals for alternative polling places;
- Publish the results of the review, giving reasons for its decisions.

4. Current practice: Polling Places

4.1 The (Acting) Returning Officer adopts a practice where, following each election, any issues in respect of the suitability of a polling place or a polling station is immediately addressed to ascertain whether there is a need to seek alternative accommodation. Polling places are therefore regularly reviewed and updated which reduces the number of issues that need to be addressed in the statutory polling place reviews.

4.2 In addition, the disabled access in respect of any polling place is assessed at each election by the completion of an access checklist by each Polling Station

Inspector; with any necessary actions being taken. This reduces the number of issues that need to be addressed in the statutory polling place review. The last two full elections took place on 2nd May 2019 (local election) and on the 23rd May 2019 (European Parliamentary Election).

4.3 On occasion, it may be necessary to change the designation of a polling place outside the statutory review process or meeting of the Electoral Matters Committee. This usually occurs as a result of premises being closed or unexpectedly becoming unavailable, often at short notice, or if an unscheduled or early poll takes place. Authority is delegated to the Chief Executive to make, where necessary, alterations to the designation of any polling place in such circumstances.

5. Aims of the review

5.1 In conducting a statutory review the Council must, when designating polling districts, seek to ensure that all electors have such reasonable facilities for voting as are practicable in the circumstances.

5.2 In designating polling places the Council has an obligation that it will:

(a) seek to ensure that all the electors in the constituency have such reasonable facilities for voting as are practicable in the circumstances;

(b) seek to ensure that so far as is reasonable and practicable, the polling places it is responsible for are accessible to all electors who are disabled;

(c) have regard to the accessibility of disabled persons to potential polling stations in the polling place;

(d) other than in special circumstances, locate the polling place in the polling district it serves; and

(e) ensure the polling place is small enough to indicate to electors in different parts of the polling district how they will be able to reach the polling station.

5.3 The focus of the review was to identify wherever possible, polling places/polling stations (included temporary polling stations) which met set criteria relating to the location, facilities, accessibility, health and safety and space.

5.4 Whilst ideally the Council would have the choice of a range of fully accessible buildings, conveniently located for the electors in the area, this is not always the case and there may be little choice available. Where it is not possible to identify polling stations which meet the specification exactly, particularly around accessibility, every reasonable adjustment will be undertaken to provide access for all electors.

5.5 One of the key considerations taken into account during this review process was future plans for development activity across the city. Officers have collated information from a variety of sources using the Council's wider knowledge and intelligence in relation to demographics, residential planning and development to understand the future volume and distribution of electors. This is particularly relevant

to wards in the city centre and its fringes where the greatest levels of new residential development are taking place.

6. The Review Process and timetable.

6.1 The stages of the review are set out in the timetable below:

Date	Activity
17 July 2019 and 20 August 2019	Meeting of Electoral Matters Committee.
Stage 1 – formal notification of the Review	
23 July	Formal notification of the Review published on the web and notices displayed in various public buildings in the city.
Stage 2: Start of the Consultation period	
24 July 2019	Start of the consultation.
19 August .2019	Publication of the (Acting) Returning Officer’s representations.
27 September 2019	Consultation ends.
Stage 3 – Concluding the Review	
30 October 2019	Special meeting of Electoral Matters Committee to consider and approve the proposals.
20 November 2019	Recommendations to Full Council from the Electoral Matters Committee.
1 December 2019	(Acting) ERO to publish Electoral Register. Please note - as a Parliamentary General Election is taking place in December, the electoral register will need to be published on the existing scheme. The register will then need to be re-published to reflect the new scheme on either 1 January 2020 or 1 February 2020 depending on relevant circumstances.

6.2 Officers in the Electoral Services Unit on behalf of the (Acting) Returning Officer actively monitor the effectiveness of the current polling station arrangements for

electors, taking into account the number of electors and turnout at different polls. As part of this process, a record had been kept of any comments received from stakeholders, including previous representations made by elected representatives, officers and premises, for consideration once the review was formally underway.

6.3 On the 23rd May 2019 (European Parliamentary Election) Presiding Officers at each of the polling station completed a questionnaire to assess the suitability of existing arrangements. This intelligence assisted in developing the (Acting) Returning Officer's representations. The questionnaires are available for viewing upon request.

6.4 The Electoral Services Team undertook visits to polling stations during August, September and October 2019. The purpose of these visits was to assess the suitability of existing arrangements and identify alternatives where required, as well as taking into consideration the implications of planned electorate growth as a result of residential development. This intelligence assisted in developing the (Acting) Returning Officer's representations.

When assessing the suitability of polling places/stations an assessment of the following issues were taken into account:

- the proximity of the polling place to populated areas;
- accessibility;
- signage;
- management and configuration of the polling station;
- capacity of polling places to accommodate more than one polling station if necessary;
- the number of electors within the district;
- recent development and population changes;

7. Consultation approach and representations received.

7.1 The Council's consultation period ran between 23 July 2019 and 27 September 2019. During this time, any elector in a constituency located wholly or partly in the Council's area could make representations, together with other interested persons and bodies, including elected representatives. By law, representations must also be sought from such persons as the Council considers to have particular expertise in relation to access to premises or facilities for persons who have different forms of disability; such persons must also have an opportunity to make representations and comment on the (Acting) Returning Officer's representations.

7.2 The (Acting) Returning Officer for the relevant Parliamentary constituencies is required to make a compulsory submission, which must then be published by the Council. This must include information regarding the location of polling stations within polling places. As part of this review the (Acting) Returning Officer identified a number of issues relating to particular polling districts/places to be considered by the Council in detail as part of its statutory review.

7.3 As part of the review process the Council wrote to the following groups inviting comments or suggestions regarding the suitability of polling districts and polling places in the city:

- Councillors;
- Members of Parliament for Salford's parliamentary constituencies;
- Disability groups;
- (Acting) Returning Officer Manchester City.

8. Consultation Submissions.

8.1 Elected representatives from 20 wards were invited to meet with the Elections Team to make representations. Thirteen submissions were received. Referenced in Appendix 1.

8.2 A total of two responses were received from electors. Referenced in Appendix 1.

8.3 No responses were received from the any of the other groups consulted.

9. The outcome of the review

9.1 The proposals have been devised to meet the statutory requirements that the Council must consider when designating polling districts and polling places. In particular, the Council is required to consider the criteria set out at paragraph 6.4 of this report and also the following factors:

(a) geographical size of polling districts;

(b) size of the electorates of polling districts (however, a large polling district electorate may not itself be an issue, provided that its polling place is such that the required number of polling stations can be properly accommodated). This also included consideration of merging smaller polling districts, particularly in areas of low turnout, so that resources can be targeted effectively to where they are most required;

(c) the need for polling districts to have boundaries that enable it to contain a suitable polling place;

(d) the distance of the polling place from all areas of the polling district;

(e) other features of the polling district's geography that may make reaching a polling place difficult for some or all of its electors;

(f) accessibility of the polling place to disabled electors;

(g) the likely location of any polling station(s) within the polling place, including consideration of their accessibility for disabled electors;

(h) suitability of the polling place in terms of the space required to effectively conduct polling;

(i) the need to minimise disruption caused to schools and other premises as much as possible. The (Acting) Returning Officer is entitled to use, free of charge, schools maintained or assisted by the local authority as well as those schools that receive grants made out of monies provided by parliament. The Electoral Services Unit works with schools to find solutions to enable them to remain open while being used as polling stations. In other cases alternative premises have been explored and utilised where possible.

9.2 The following pages contain details of the **outcome of the review**. There is one table that relates to each of the authority's 20 wards which includes:-

- the polling district
- the number of electors (where available) as at 1 October, 2019
- the polling place
- the polling station
- whether any change was made with a justification for any change or no change.

9.3 In developing these proposals all consultation responses received have been considered and can be found in Appendix 1.

9.4 Details of the revised street list for each polling district can be found in Appendix 2.

9.5 It should be noted that as proposals have resulted in a change in the overall number of polling districts across the city, the code for the polling districts in each of the wards has been revised to ensure these are sequential.

Outcomes: Polling Places

The review has resulted in the following changes to the Polling Places referred to:-

A. Cadishead and Lower Irlam

Existing arrangements			
Existing polling district	Electors	Polling place	Proposed polling station No.

KEY COUNCIL POLICIES:

EQUALITY IMPACT ASSESSMENT AND IMPLICATIONS:

The City Council has a statutory responsibility to seek to ensure that polling places are accessible to all electors. The accessibility of buildings and location of polling places has been a key factor in developing the proposals. Consultation with electors and disability group representatives has been undertaken.

ASSESSMENT OF RISK: High

LEGAL IMPLICATIONS Supplied by: Stephen Hollard, Group Manager, Democratic Services Legal Team, Manchester City Council and Salford City Council Shared Legal Service – Tel: 0161 234 3336; email: s.hollard@manchester.gov.uk

A review of polling districts and polling places is required to satisfy the Council’s obligation to undertake periodic compulsory reviews under Section 18C of the Representation of the People Act 1983. The Council is required to carry out and complete such a review within the period of 1 October 2018 to 31 January 2020.

Aside from the Council’s obligation to undertake a compulsory review of polling districts and polling places, a review would in any case be necessitated given the pending changes to ward boundaries resulting from the LGCBE’s electoral review of Salford, as implemented by The Salford (Electoral Changes) Order 2019

FINANCIAL IMPLICATIONS Supplied by: Michael Rogerson x2743

The compulsory review has been undertaken by existing staff members so no extra costs have been incurred.

It is expected that the implementation of the final proposals will increase the cost of polling places (premises and staffing) by approximately £..... for a standalone local election.

Compulsory Review of Polling Districts and Polling Stations – Feedback Form.

Polling District/Station	Any comments or alternative suggestions on the current arrangements?	Any other comments or suggestions on other polling places or polling districts in the city?	Any comments on the Acting Returning Officer's submission?
Presently Barton (will be Barton Winton) : DA	The whole polling district will transfer into Higher Irlam & Peel Green. To transfer the area west of the M60 from polling district DA (electorate of 280) to DF (electorate of 412).	-	-
DB	To create a new polling district from part of the existing DB polling district. The eastern half of DB would need a new station, suggested Godfrey Ermen as polling station for this polling district		
DC	This can remain as at present. However there is an area of DG, with about 175 electors, that will stay in Barton and Winton, which may need to be added.		
Broughton: OD	Proposal to use St John's Church.	-	-
OD	Supportive of the proposal to identify a new polling place to replace the temporary station on St John's Street, Salford.	Kersal and Broughton Park: With regards to both the polling places at St Aidan's Church, Littleton Road (NA and NB) and	Detailed in column 3.

OD	<p>Suggested use of Broughton Pool as a potential polling station. Advantages for disabled people/ wheel chair users as it has designated parking slots which St John's St does not.</p> <p>There needs to be another polling station on Littleton Rd near or in Sports Village.</p>	<p>St. Paul's Primary, Moor Lane (NC). Please ensure that the polling places have the capacity to accommodate double polling stations (where the number of electors in person is over 2,000) and provide accessible facilities for all electors.</p> <p>Supportive of the proposal to merge polling districts NE and NF thereby removing the need for a polling station in the temporary station on Japan Street (NE) and avoiding the inherent risks associated with temporary polling stations.</p> <p>-</p> <p>-</p>	-
Presently Irlam (will be Higher Irlam and Peel Green): BB	Small children running around in the polling station.	-	-
Presently Kersal (will be Kersal and Broughton Park): NE	The temporary station on Japan Street blocks cars from utilising the turning circle. Complaints received.	-	-
Presently Langworthy (will be Weaste Seedley):	Following the recent Local Elections, I am happy with the polling stations currently in Langworthy ward	-	-

Ordsall: PB	Just to clarify about the Angel Centre - is the Salix community room not going to be used?	-	-
Presently Pendlebury (will be Pendlebury and Clifton).	No changes required	-	-
Presently Swinton South (will be Swinton and Wardley).	Polling stations review of: FA, FH, HD, HF, new polling stations at the Civic Centre, Deans Primary School or old Ambrose Barlow School.	-	-
Presently Swinton North (will be Pendlebury and Clifton): HB	Mossfield Primary School – gates closed and disabled access difficult.	-	-
Walkden North.	Fine to keep present arrangements.	-	-
Presently Worsley (will be Boothstown and Ellenbrook): IG	To move from the temporary cabin at Worsley Brow to either St Marks School, St Marks Church Hall or Hanover Court retirement housing complex.	Worsley and Westwood: New polling district requested, polling station to be at the Social Club, Grange Road.	-
Presently Langworthy	Love it. Staff has been friendly and the polling station is never crowded.	-	-
Presently Irwell Riverside RI- (polling district will be split between Pendleton and Charlestown & Blackfriars and Trinity).	Please could we have a proper venue in Charlestown rather than a temporary station in a car park?	-	-
